SUBJECT INDEX FOR VOLUME 35

accidents, and primary care, 987–995
adjustment disorder, 25–35
and cultural history, 37–47
adolescence, as a culture-bound syndrome, 73–80
and health inequalities, 679–687
Africa, ethnomedicine and sexually transmitted disease, 121–130
and child mortality, 799–810
alcoholism, consumption in Northern Finland, 735–740
anorexia nervosa, 57–71
Antarctica, stress and coping, 651–664
asthma, the economics of care, 161–175
Australia, cancer mortality rates, 195–208
research attitudes toward ethical committees, 317–322
Aboriginal mortality, 335–346

belief systems, and chronic illness, 699–709
bereavement, 1521–1523
birth order, and health, 443–464

Canada, children's nutrition programmes, 1123–1129
cancer, and quality of life, 139–145
mortality patterns in Australia, 195–208
and healing communities, 323–333
comparative treatment costs, 979–985
quality of life and chemotherapy, 1505–1509
Caribbean, 1215–1282
cartography, the human genome and health care, 1469–1476
child abuse, among American Indians, 305–315
chronic illness, and belief systems 699–709
clinical research, and ethics, 1079–1091
clinical trials, 217–224
community health, promotion programmes, 239–249
community participation, 419–424
culture, and personality disorders, 37–47
and adolescence, 73–80
and mental illness, 91–103
and primary care, 409–417
and community health programmes, 419–424
meaning and disability, 1093-1102

death and dying, clinical decision making, 251–259
425–441
demography, fertility differentials and urban residents, 1199–1210
fertility change in Senegal, 1317–1320
developing countries, and urban health, 111–120
and qualitative methods, 603–612
and women's access to health care, 613–626
health and nutrition, 689–697
and the abortion pill, 767–776
and maternal health, 967–977
and health social sciences, 1321–1420
and medical anthropology, 1389–1395

quality of life, and oesophageal cancer, 139–145
and health intervention, 367–375
and chemotherapy, 1505–1509

rapid assessment, procedures and research, 839–850
refugees, and health problems, 507–523
religion, and psychiatry, 81–90
risk, 401–407

schistosomiasis, among Sudanese women, 877–890
self-rated health, 271–279
among Norwegian adults, 935–947
Senegal, fertility change, 1317–1320
sexuality, and the use of herbal agents, 1037–1042
sexually transmitted disease, in Africa, 121–130
risk and morality, 147–160
and prostitutes, 281–286
and prostitution in Thailand, 891–901
in Liberia, 1457–1468
social class, and blood pressure in Jamaica, 1233–1244
social inequity, and heart disease in Germany, 1282–1292
(see also equity)
social support, and cancer, 323–333
its measurement, 1027–1035
social symbols and illness, 183–188
South Africa, and psychiatry, 1115–1122
depression and tuberculosis, 1311–1315
stress, and coping behaviour in Antarctica, 651–664
and oral health, 1511–1520
substance abuse, and syphilis, 147–160
471–493
Sudan, schistosomal infection, 877–890

technology, and health care, 567–577
Thailand, and female prostitution, 891–901

urban health, in developing countries, 111–120
traditional birth attendance in Indian slums, 811–817
in an Indian city, 1293–1302
U.S.A., sexually transmitted disease and substance abuse, 147–160
child abuse and neglect among American Indians, 305–315
ethical and legal issues of substance abuse, 471–479
public health policy, 531–540
sociology and American medical education, 951–965
innovative and primary care, 1333–1343

women's health, and development, 747–837

Yaounde, artificial insemination, 907–913

Morocco, the rise of female healers, 819–829
mortality rates, regional patterns in Australia, 195–208
among Australian Aboriginals, 335–346
and social trends, 377–399
among children, 799–810
among West African infants, 851–856
and birth order among Caribbean children, 1259–1271
and marital status, 1525–1533

Nepal, traditional healing, 723–734
drug dispensing, 1015–1025
Netherlands, health care reform, 1445–1455
Nigeria, and drug trafficking, 481–493
marketing contraceptives, 903–906
faith clinics in a Yoruba community, 1171–1178
fertility rates among the Ijo, 1199–1210
primary care training, 1477–1484
Norway, self-assessed health, 935–947
nursing attitudes, about migrant women, 1137–1144
nutrition, effects of cash crop production, 689–697
and productivity, 1103–1113
among Canadian children, 1123–1129

obesity, and marital status, 915–923
obstetrics and gynaecology, symphyseotomy versus caesarean section, 789–793
church-based care in Nigeria, 1171–1178
occupational health, and Indian case study, 1293–1302
and oral health, 1511–1520
organ transplant, European policies, 177–182

periodental disease, and work stress, 1511–1520
pharmaceuticals, distribution in Nepal, 1015–1025
international network for drug use, 1329–1341
advertising and legislation, 1497–1504
physician behaviour, and randomized clinical trials, 217–224
physician satisfaction, in hospitals, 295–303
physicians, as managers, 549–566
poliomyelitis, and injections, 795–798
premenstrual tension, 49–56
prenatal care, and MEDICAID, 1055–1063
preventive dentistry, 997–1001
primary health care, and psychosocial problems, 105–110
and psychological distress, 189–193
Anglo–Dutch comparisons, 209–216
and medical interviews, 347–355
and culture, 409–417
in the EEC, 525–529
and high cost technology, 567–577
and accessibility, 613–626
female participation, 831–837
in accident and emergency, 987–995
non-urgent use of the emergency room, 1189–1197
community health services in Mexico and the U.S., 1433–1443
psychiatry, diagnostic careers, U.S.A., 1–103
and religion, 81–90
and patient seclusion, 711–721
South African emergency departments, 1115–1122
public health policy, in U.S., 531–540

health management status, Sickness Impact Profile, 1003–1113
health promotion, and intervention, 359–365
367–375
health status, and self–evaluation, 271–279
heart disease, risk factors in Germany, 1283–1292
HIV/AIDS, see sexually transmitted diseases
Hong Kong, hospital financing, 857–868
hospital, structure and physician satisfaction, 295–303
global budgeting in Hong Kong, 857–868
hospitalization, and the elderly, 287–293
and diabetes patients, 1157–1170
hypertension, resistance to pharmacological treatment, 869–875

immunization, among Sierra Leone infants, 851–856
India, an occasional health programme, 1293–1302
infertility, in the Cameroon, 907–913
International Clinical Epidemiology Network (INCLEN), 1325–1327
International Network for Rational Use of Drugs (INRUD), 1329–1341
Italy, protective maternity legislation, 1485–1495

Jamaica, maternity services, 1225–1232
blood pressure, 1233–1244

labour productivity, and nutrition, 1103–1113
Liberia, sexually transmitted disease, 1457–1468

malaria, 131–137
marital status, and obesity, 915–923
and infant health, 1179–1187
and mortality data, 1525–1533
maternal attitudes, injections and polio, 795–798
maternal health, 967–977
protective legislation in Italy and France, 1485–1495
maternity services, in Jamaica, 1225–1232
MEDICAID, 1055–1063
medical anthropology, in the developing world, 1389–1395
and sexually transmitted disease in Liberia, 1457–1468
medical education, and the psychosocial review of systems, 261–269
male and female anatomy texts, 925–934
and American sociology, 959–965
medical ethics, and the ending of life, 251–259
in Australia, 317–322
and substance abuse in the U.S.A., 471–479
and the new genetics, 495–505
and clinical research, 1079–1091
and ethnography, 1421–1431
medical geography, 579–587
mental health, definition of psychiatric illness, 25–35
in primary care settings, 189–193
and systems analysis, 261–269
depression among South African blacks, 1311–1315
mental illness, and psychiatry, 91–103
and general practice, 105–110
the seclusion of psychiatric patients, 711–721
methodology, qualitative and quantitative research in public health, 603–612
Mexico, innovation in primary care, 1433–1443
migrant women, 1137–1144
morbidity, in general practice, 665–678
among West African infants, 851–856

diabetes mellitus, and hospitalization, 1157–1170
treatment costs, 1303–1310
diagnostic careers, in psychiatry, 1–103
diarrhoea, in Pakistan, 1043–1053
behavioural intervention, 1405–1420
disability, among Sudanese women, 877–890
and employment, 951–958
culture and meaning, 1093–1102
doctor/patient relationship, 347–355
Dominican Republic, health care, 1215–1223

ecology, and social scientists, 589–596
elephantiasis, 627–649
equity, and health care, 465–469
health and adolescence, 679–687
ethnography, data collection, 1369–1378
and medical ethics, 1421–1431
ethnomedicine, sexually transmitted disease in Africa 121–130
and malaria, 131–137
ritual discourse in Nepal, 723–734
training, traditional birth attendance, 811–817
female practitioners in Morocco, 819–829
and sexuality in Africa, 1037–1042
and sexually transmitted disease in Liberia, 1457–1468

family planning, conflicting views on contraceptives, 753–766
abortions in developing countries, 767–776
in Nigeria, 903–906
and behaviour change, 1065–1076
in Finland, 1131–1136
in the West Indies, 1245–1257, 1273–1282
family status, and health, 443–464
female mutilation, 777–787
Finland, alcohol consumption among reindeer herdsmen, 735–740
France, protective maternity legislation, 1485–1495

gender differences, in morbidity, 665–678
general practice, and mental illness, 105–110
reimbursement and management of time, 209–216
morbidity rates by gender, 665–678
comparison with hospitals over accidents and emergencies, 987–995
and consultation agendas, 1145–1155
gender relations, family planning and fertility decline, 1245–1257
genetics, and human behaviour, 227–238
ethical issues and legal implications, 495–505
a cartography of the human genome, 1469–1476
geriatric medicine, and long-stay elderly, 287–293
Germany, cardiovascular disease risks, 1283–1292
Ghana, and elephantiasis, 627–649

health beliefs, among Pakistani mothers, 1043–1053
health care, in the Dominican Republic, 1215–1223
in the Netherlands, 1445–1455
training patent medicine vendors, 1477–1484
health care management, and the medical profession, 549–566
health economics, costs of treatment for asthma and chronic obstructive pulmonary disease, 161–175
health education, and diarrhoeal control, 1405–1420
health for all, 541–547
